

PESTICIDE NOTIFICATION REGISTRY

The State of Indiana has regulations that impact how school corporations may use pesticides on school grounds. Old National Trail Special Services follows these guidelines and we are inviting parents and guardians to join our Pesticide Notification Registry. By signing up for this registry, you will be notified at least 48 hours prior to a pesticide application at Old National Trail Special Services. If you would like to participate, please complete the required information below and return this form to the school office or to:

Old National Trail Special Services
1 North Calbert Way, Suite B
Greencastle, IN 46135

**** Only parents/students who return this from will be contacted**

PLEASE PRINT LEGIBLY

PEST CONTROL AND USE OF PESTICIDES

Old National Trail Special Services is committed to providing a safe environment for students. It seeks to prevent students from being exposed to pests and pesticides. While pesticides protect children from pests that may be found in the school and its surrounding grounds, under some circumstances they may pose a hazard to children. Therefore, pest control practices may involve a variety of chemical and non-chemical methods that are designed to control pests effectively while minimizing potential pesticide exposure.

Old National Trail Special Services will:

- A. Annually inform parents and staff members of the Corporation's pest control policy at the time of student registration by a separate memorandum or as a provision in the staff and/or student handbook;
- B. Provide the name and phone number of the person to contact for information regarding pest control;
- C. Establish a registry of parents and staff members who want to receive advance notice of all pesticide use and provide such notice;
- D. Provide notice of planned pesticide applications to parents and employees who have requested advance notice;
- E. Maintain written record for ninety (90) days of any pesticide applications.

Old National Trail Special Services will provide notice to those in the registry at least two (2) school days prior to the date and time the pesticide application is to occur unless an emergency is declared. The notice will include the date and time of the pesticide application, the general area where the pesticide is to be applied and the telephone number to contact for more information.

In case of emergency pesticide applications, because of immediate threat to the public health, the school shall give written notice as soon as possible.
